I am a software developer with a passion for creativity and functionality who brings experience that spans the hospitality, start-up, and e-commerce industries. As an operations and people manager of a team of 25, I have a proven track record in solving problems and troubleshooting on the fly, and understand the importance of planning ahead and effective communication. I would like to use my skills to be a part of a creative, solutions-oriented team that works hard and has fun doing it.
